SUMMARY

I am a dynamic team talent with 5+ years of UX and UI design experience. I have researched, prototyped and designed user-oriented web applications with a total of 5 million entries, multiple types of digital content and designed & launched an app, which reached #1 in the App Store.

EXPERIENCE

UX Designer / Dodge Data & Analytics / Construction.com

2016 Nov – Present

- Researched, prototyped and designed market intelligence and collaboration hub with 3 million projects as Dodge Construction Central.
- Researched, prototyped and designed bid and document management web application as Dodge PlanRoom Pro for construction professionals.
- Designed new concept of eCommerce as Dodge Sweets for construction and building materials.
- Developed and maintained style guidelines to support web interface.

UX Designer / ODJO.net

2014 Aug – 2016 Nov

- Prototyped and designed mobile music application for iPad.
- Prototyped and designed fully responsive website.
- Designed social media graphics and digital marketing campaigns including e-mail, print, and logo design.
- Created original graphic and video content.
- Tested across site, device, and screen size to ensure quality and consistent experiences.
- ♦ Reached #1 in music category in App store
- ♦ Featured on ProductHunt.com/tech/odjo

Programmer & Analyst / AccessMatters.org

2009 Sep – 2014 Aug

- Prototyped and designed web-based B2B application with 2 million records for electronic submission of data for company that provides services for health care agencies/clinics.
- Prototyped and designed web application for electronic submission of data for high schools that use the company's services.
- Frontend web development in CSS and HTML with JavaScript
- ♦ 80% of corporate customers switched to electronic submission of data in first year
- ♦ 20 new companies joined application in next year after successful launch. Data transfer time decreased by 70%
